PROTECTOR FENCES IN 2010 BUSINESS AWARD

Australia's leading pool fencing manufacturer was recently recognised at the Sunshine Coast Excellence in Business Awards as the leading Building/Manufacturing Large Business for 2010.

General Manager for the company, Grant Symes said he was humbled to be recognised in such an elite group of finalists.

"The Sunshine Coast has produced some world leading businesses, so it's nice to be recognised amongst our peers as worthy of the award,"

"We constantly strive to deliver the best products to our clients, and to raise awareness of water safety for children under five and to be awarded for that is priceless."

Commenting on his 2009 partnership with water safety advocate Laurie Lawrence and Kids Alive Do The Five, Symes said saving the lives of young children had become the company's main priority.

"If we can continue to make the safest possible fencing and promote swimming lessons, supervision and resuscitation with it– we can eliminate drowning in children under five."

Through their partnership, Lawrence and Symes have developed a round of water safety Community Service Announcements which will be aired from December 1.
